Ordering Procedure

Please use this catalog and order form for your signage order. Please try to keep your signage needs limited to what is available in this catalog, as Propark is shifting to consistent standards in signage.

Please use one order form per location. Do not consolidate multiple locations on one order form.

Any specific copy should be entered in the bottom portion of the form.

Please email or fax your order to Michael Safford at mike.safford@propark.com or 860-525-7738. Mike will send you a proof of your signage for you to sign off on. The proof will depict the signs as they will actually look and read. Please make necessary changes as soon as possible to continue the expedition of your order.

Please allow 7-10 business days for your order to be processed and shipped. Allow longer for larger sign packages.

Once your signs are delivered do not install them yourself. Please arrange signage installation through your regional manager. Signs damaged from unauthorized installation may be the financial responsibility of the person who installed it or the location manager.

Do not alter the signs in any way, shape or form. These signs are quite expensive and should not be defaced in any manner. If you have a rate change or other alteration that needs to be made, please notify the sign shop or your regional manager.

If your signs become heavily damaged, please take a picture of them and send it to marc.schreiber@propark.com for assessment and subsequent replacement, if necessary.

About Our Graphic Design and Art Department

Propark America's Graphic Design and Art Department has been creating award-winning signs and designs for many years. Please fill out an order form for a sign request. Signage is produced on a first-come, first-serve basis in almost all instances. Please allow a minimum of ten (10) business days to process and expedite your order. Providing sketches and artwork may help facilitate this process. For more information please contact our lead graphic design supervisor, Michael Safford at (860) 525-7729 or at mike.safford@propark.com.
